

COVID-19 NEW REGULATIONS

Due to new regulations and a lengthy conversation with Fraser Health, Evil By Needle will be implementing new rules to ensure your safety as well as our own which will include as follows:

- All staff will wear face protection – mask & protective shield, they will also be wearing gloves as always
- Customers must wear masks and gloves at all times (can be provided if you don't have your own)
- Hand washing station in center of shop for all to use as well as several locations of hand sanitizer
- Everyone's temperature will be checked prior to entry into Evil By Needle
- Social distancing will be required while moving around the shop
- All surfaces will be cleaned continuously throughout the day – doorknobs, handles, countertops, chairs, anything that gets touched
- We will be limiting the amount of people in the shop at all times therefore the door will be locked. You will need to knock or call **604-543-0801** for entry. You will not be permitted in until your artist or piercer is ready for you.

This may seem extreme to some but this will be the new normal until there is a vaccine.

Your safety and ours is our primary concern.

Thank you for your co-operation
